

Imenco SEA LED 60

HIGH OUTPUT MULTI PURPOSE LED LIGHT

General description:

High output multi purpose LED light for ROV / inspection points. SEA LED 60 is fitted with the latest high quality LED arrays and has a much longer lifespan than traditional Halogen / HID lights. Imenco SEA LED 60 can be delivered with different colour temperatures and lens angles. LED 60 light output is easily regulated from 0 - 100% by different regulation modes, including remote control.

Specification:

Input power: 60W (≈ 150W Halogen)

Depth rating: 3.000m

Power: 24V DC or 110V AC

Housing: Hard Anodised Aluminium

Light output: 3000 Lumen

Dimension ex. connector.: Ø64 x 115 mm

Light temperature: 4500K or 6500K

Weight: 0,7kg in air / 0,5kg in water

Light beam Angle: 30° or 60°

Connector: MCBH3M (or specified)

Light regulation area: 0-100% in 8 steps

Regulation modes:

Input voltage, RS232, 0 -10VDC, 24VDC step pulse

IR Remote Control for presetting light level

LED array life expectancy: 50.000 Hours

Temperature protected
