

Tiger Shark Camera

The Tiger camera is based on the SDS 1210 stills camera with its proven track record for high quality subsea images. Quality and user friendliness is taken to a new level.

It is perfect for ROV use or as a stand-alone camera for re-search purposes with high resolution, Ethernet control and download capabilities. Integrated flash (1 - 3 m) and red dot laser for reference scaling. Can be supplied with timer function and battery packaged for advanced and quality image capturing.
