

SeaLED 125

High output multipurpose SEA LED light panel for ROV / inspection points. Imenco SeaLED 125 is fitted with the latest high quality LED arrays which has much longer lifespan than traditional Halogen / HID lights. SeaLED 125 can be delivered with different color temperatures and lens angles. LED 125 light output is easily regulated from 0 - 100%.

Technical Specification

Input Power:	1000W (≈ 300W Halogen)
Power:	110V AC
Light output:	7500 Lumen
Light temperature:	3200K or 6500K
Light Beam Angel:	25°, 40° or 70°
Light regulation area:	0-100%
Regulation modes:	Triac dimmable or by 0-10V DC
LED array life expectancy:	50,000 hours
Depth rating:	3,000m
Housing:	Hard Anodised Aluminum
Dimension ex. Connector:	76 x 137 x 43 mm
Weight:	0,83 kg in air / 0,6 kg in water
Connector:	MCBH3M (or specified)
Temperature protected
