

High output multi purpose LED light panel for ROV / inspection points. Imenco SEA LED 250 is fitted with the latest high quality ultra high output LED arrays with much longer lifespan than traditional Halogen / HID lights. SEA LED 250 can be delivered with different colour temperatures and lens angles. Imenco SEA LED 250 light output is easily regulated from 0 - 100%

Specifications

Input power	: 200W (≈ 600W Halogen)
Power	110V AC
Light output	15000 Lumen
Light temperature	3200K
Light beam Angle	25°, 40° or 70°
Light regulation area	0-100%
Regulation	Triac dimmable or by 0 - 10V DC
LED array life expectancy	50.000 Hours
Depth rating	3.000m
Materials	Hard Anodised Aluminium
Dimension ex. connector	101 x 163 x 43 mm
Weight	1,3kg in air / 1kg in water
Connector	MCBH3M (or specified)
