

SeaLED 20 – Subsea Light

The SeaLED 20 miniature high output subsea light for divers/small ROV/tools and inspection points. Fitted with the latest high quality LED producing an increased lifespan compared to the traditional Halogen and HID lights.

SeaLED 20 can be delivered with different color temperatures and lens angles. The light output is easily regulated from 0-100%.

Technical Spesification

Input Power: 20W (=50W Halogen)	LED array life expectancy: 50,000 hours
Light output: 1,000 Lumen	Dimensions ex. Con.: 30x86mm
Light temperature: 3,200K	Weight: 0.03 kg in air / 0.20 kg in water
Light beam angle: 40° (70° optional)	Depth rating: 1,500msw
Lifht regulation area: 0-100%	Power: 24V DC
Regulation: 0-10V DC	Standard connector: MCBH3M or optional
Housing: Duplex Stainless Steel	Temperature protected: Yes
