

# Accumulator System

## for Emergency Release cutter

**This accumulator system has been designed especially to be used together with a wire/hose cutter.** Using an accumulator in conjunction with one of our wire cutters will enable you to operate the wire cutter in an emergency situation where all power from the ship/rig is lost. The accumulator system will be pre-loaded with sufficient power to cut the designated wire/cable without any external power needs.

### Key Features

- Easy to operate
- Delivered with hand pump
- Frame made from stainless steel

### Specifications
