

Chute with drip tray and platform

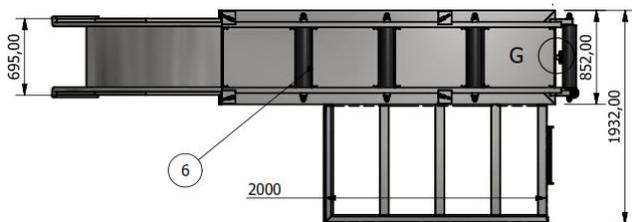

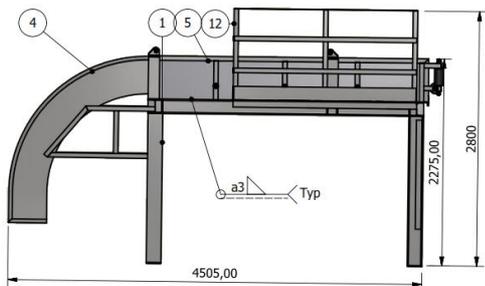

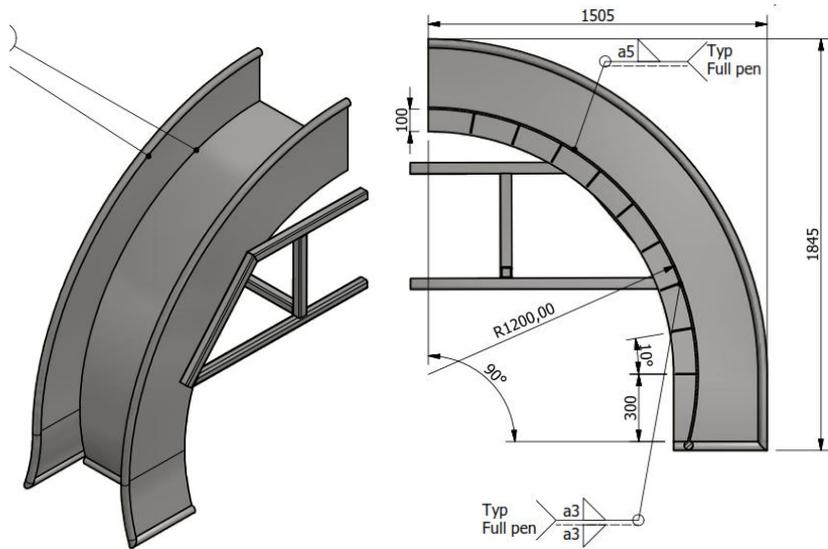

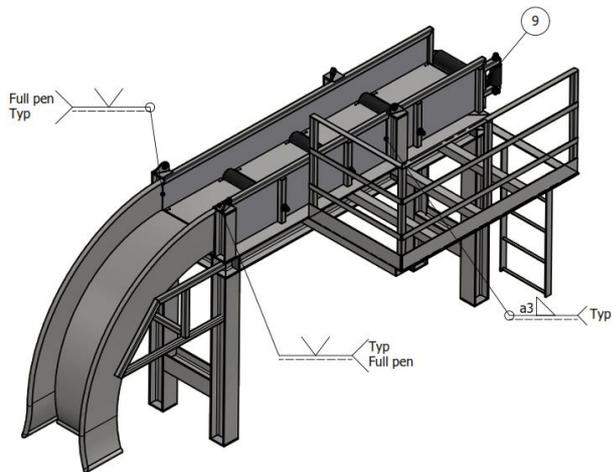

- 1200mm radius

Chute with drip tray for emergency connector. Rollers in horizontal plate.

Trip tray has ball valve and connection flange for 1" hose

Width for hose:	650mm
Total length:	4505mm
Total width:	1932mm
Radius:	1200mm

Technical Data

Material: S355

Material Strength: 355 MPa

Break Load: 22.9 Tonnes

WLL (Working Load Limit): 10 Tonnes.

Safety Factor at WLL 10 Te: $\frac{\text{Material Strength}}{\text{Working Load}} = \frac{355 \text{ MPa}}{155,25 \text{ MPa}} = 2.29.$

Stresses acting at applied load of 20 Tonnes:
