

# eTorque Tool Class 1/4 MK2

API 17D/ ISO 13628-8 Class 1-4

The Universal Electrical Torque Tool is designed to improve operational efficiency with the highest level of performance. The eTorque Tool provides precise torque and turn feedback and control. It is able to operate all rotational valves continuously when submersed, without the need for any change of motor size, gears steps or valve interfaces, and thereby saves valuable rig/vessel time. This tool does not have a POD and is connected directly to a ROV output with 110VAC and RS232 communication.

## Specifications

Manufacturer	Oceaneering
L x W x H	570 mm (480 mm without ROV handle) x 228 mm x 240 mm
Weight in air	60kg
Weight in water	42kg
Temperature	-10° to 50°
Depth rating	3.000 m
Torque range	From 50 to 2.700 Nm
Material	Aluminium / 316L
Fastener materials	A4-80
Oil type	Hydraway 22 or similar
Size	368 x 230 x 573mm (with handle)

Transport box	800 x 600 x 400mm 75kg
Connection	110 VAC, 1 Phase minimum 10A.
Communication	RS232
Connector	5506-2013
