

10ft Subsea Basket

The 10ft Subsea Basket is designed for deployment and recovery from the seabed. It has a payload up to 3,5Te with robust steel on the floor and sides. With the 4 point (2 by 2) lifting slings the rigging arrangement can easily be moved outside of the basket under loading into the basket.

Main features:

- 2 by 2-part lifting slings 4 meters length
- Container corners below for sea fastening
- Forklift pockets for easy mobilization
- Robust steel on sides and floor for rough recovery tasks

Payload:	3,5Te
Tara:	1,47Te
Gross Weight	4,97Te
External size (L x W x H)	2990x2437x1378mm
Internal size (L x W x H)	2787x2259x975mm
