

# Buoyancy Cage

## - Deploying and retrieving of subsea buoyancy modules

The buoyancy cage is designed especially for safe and efficient deploying and retrieving of subsea buoyancy modules.

With ROV friendly design, combined with bespoke rigging it is a preferred solution for saving ROV time and safe operations subsea.

### Main features:

- Designed for deploying and retrieving subsea buoyancy modules.
- Hinged door with ROV friendly lock on the side for easy access.
- Lifting padeyes on top
- ROV handles on the sides for easy operation

Weight:	approx 3,200kg
Outside dim:	1910 x 1910 x 1500mm
Inside dim:	1509 x 1509 x 1300mm
