

Suction Kit

Suction Pump 103-H

This suction kit is used to hold ROVs steady while working. By using the suction kit you can help minimize damage to equipment, and decrease downtime on equipment and projects. It can also be used for vacuum pressurizing suction anchors.

Main Body

Dimensions 291mm x 190mm x 296mm

Performance

Flow Max. Approx. 36m³/H

Pressure Max. Approx. 23MWC

Operational Pressure

Pressure 150 Bars

Flow 15 l/mm

Port A & B ½ BSP

Drain ¼ BSP

Suction Outlet

2" BSP
