

# Single Port ISO Hot Stab

The type-A standard has a diameter of Ø43mm. The flow capacity is the same as the old API 17D. This is used in operations to increase efficiency and minimize hydraulic leaks.

## Main Body

Weight in air (Complete)	4.2kg
Overall length	328mm
Shaft length	120mm
Height	120mm

## Specifications

Hydraulic	BSP 3/8"
