

Pineapple Tool

ISO 13628-8 1, 2, & 4 (API 17D) Manipulator Operated Torque Tool

The tool is used to operate ISO Class 1, 2, and 4 interfaces without the use of a torque tool. The tool utilizes the rotate function on the manipulator to generate the required torque.

Key Features

Fishtail handle
Flex joint

Specifications

Length	285 mm
Width of socket	70 mm
Width of handle	120 mm
Interface	ISO 13628-8 Class 1, 2, & 4 socket
Maximum torque	Dependant on manipulator
Materials	Stainless steel
Weight in air/water	3/2 kg
