

4-Way Manifold Block

The 4-way manifold is used with an accumulator/HPU and wire cutters. This equipment can connect multiple cutters for a simultaneous cutting operation. The manifold can operate with 690bar and has 4 manually-operated valves for safety. The valves can be locked as an additional safety measure.

Features

Output connection points on manifold can be changed to desired fittings

Specifications

Weight	15 kg
Dimensions	30 cm x 35 cm x 35 cm
