

LED-R Series

Multipurpose Underwater Lamp

The Teledyne Bowtech LED-R-SERIES underwater LED lights are supplied with 120Vac. Due to Teledyne Bowtech's continued history of innovation, these lights feature the latest and best underwater LED lighting technology available. Rated to operate at 3,000 metres ocean depth, the lamps are manufactured with anodised aluminium. The 80° wide beam angle light produced, is ideal for colour video inspection tasks.
