

Hydraulic Compensator

6.3L 6-11PSI

The ROV and Subsea Hydraulic Compensator ensures system overpressure at all times. This is the Imenco Hydraulic Compensator is a spring activated diaphragm compensator, made from white POM with aluminium lids on the top and bottom. The spring and all bolts and nuts are stainless steel.

Specifications

Maximum compensated volume	6,3 litres
Maximum pressure	11 psi
Minimum pressure	6 psi
Security Valve set point	12 psi
Weight in air (empty)	14 kg
Weight in water (empty)	9 kg
Housing length	370 mm
Housing maximum diameter	254 mm
Hydraulic connection	2 x BSPP R3/4
