

# Hydraulic Compensator

6.3L 6-11PSI

The ROV and Subsea Hydraulic Compensator ensures system overpressure at all times. The Imenco Hydraulic Compensator is a spring activated diaphragm compensator, made from white POM with aluminium lids on the top and bottom. The spring and all bolts and nuts are stainless steel.

## Specifications

Maximum compensated volume	6,3 litres
Maximum pressure	11 psi
Minimum pressure	6 psi
Security Valve set point	12 psi
Weight in air (empty)	14 kg
Weight in water (empty)	9 kg
Housing length	370 mm
Housing maximum diameter	254 mm
Hydraulic connection	2 x BSPP R3/4
