

Subsea Lifting Basket 7T

The Subsea Lifting Basket 7t is designed for transport of tools and equipment. It has a lightweight structure designed for multipurpose use according to customer needs. The Subsea Lifting Basket 7t can be lifted from the center pole using a single wire rope, or from its corners using a 4-legged wire sling. The center pole is removable, as are the ROV grabber bars. ROV friendly hatches on top of a basket that opens from inside (center) to out, can be removed if an open basket is needed. Certified according to DNVGL-ST-E273.

Specifications
