

4-Station Valve Pack

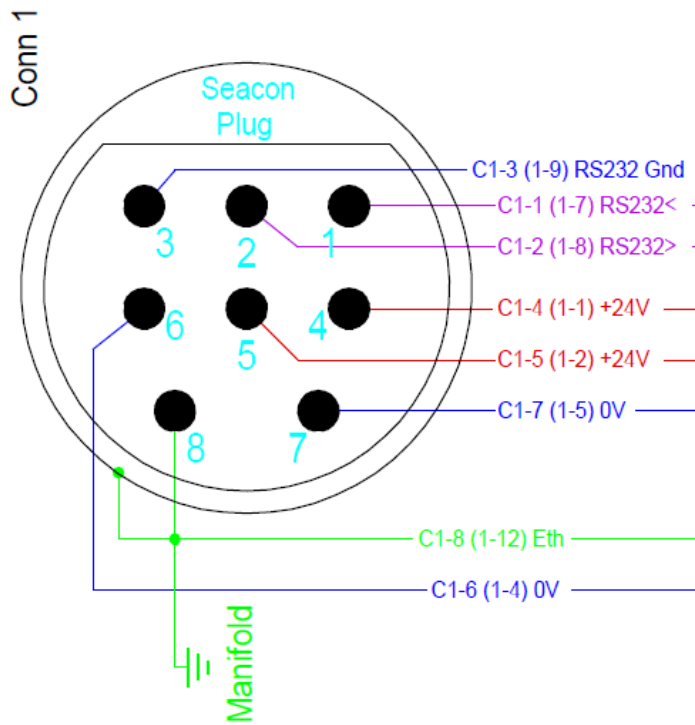

ROVQuip 4-Station Valve pack is customized for NOR with four valves that can be operated individually. It can also be set up in various backpacks, skids and DWP solutions.

Key Features

- Custom GUI
- Touchscreen control
- Compensator monitoring
- Pressure sensor
- Compact
- Easy integrated

Specifications

Port ID	Type	Size
COMP	BSPP	1/4"
1A-3B	BSPP	3/8"
P	BSPP	3/8"
4A-4B	BSPP	1/2"
T	BSPP	1/2"

Features and Benefits

- 3000m rated valve pack
- Compact, lightweight, durable
- Cost effective
- User friendly, easy to configure GUI
- Pressure Tolerant Electronics
- Uses proven Wandfluh NG3 valves
- Serial Control
- Software Diagnostics
- Phoenix connectors mounted on top of the valves facilitate the ease of removing the valves from the pack without disturbing the harness also when the need arise to change over from on/ off valves to Proportional valves
- 2 off Manual Pressure Reducing valves
- Externally Stainless-Steel Adjustable
- Flow Control valve
- Externally Adjustable Pressure Line
- Relief valve
- Removable PO Check Valves on stations when not required
- 8 off Digital Inputs
- 16 off Analogue Inputs
- Full Certification –
- Pressure tested
- Flushing tested
- Electrically tested earth leakage tested

PORT SIZES:	
COMP / O*	--- G1/4"
1A-3B	--- G3/8"
F	--- G3/8"
T / 4A-4B	--- G1/2"

NOTES:	
PMax	--- 250 BAR
QMax	--- 15 L/MIN
