

NOR Backpack XL

NOR Backpack XL was made to be integrated on the back of various ROVs for easy and quick installation. It has great capabilities in regards to operating various ROV tooling or other intervention tasks. With brackets on the back, the backpack can go into the ROV frame for connection points. It also has a lifting point on top to help installation on the ROV.

Key Features

- Low weight in water
- Easy integration
- Versatile set up
- Level sensor on compensator
- Made to fit Schilling HD, Kystdesign ROV's (DOP) and multipurpose brackets
- 5-station Valve Pack with topside touch panel
- External flow and pressure logging
- 16 ltr Compensator (More Can be added)

Specifications

Dimensions	1650 mm x 446 mm x 1264mm
Weight in Air	400 kg
Weight in Water	15 kg
Depth Rating	3000 m
Maximum Pressure (Input)	3000 psi (207 bar)
Maximum Pressure (Output)	0-3000 psi (207 bar)

Flow Rate (Input) 100 LPM
Flow Rate (Output) 0-100 LPM
