

# Webtool - Sack Truck Emergency Deck Cutter

The Emergency deck cutter is intended to cut hoses, Umbilicals and ropes if the vessel has an Emergency or drift off. The assembly is made to be easy to move around the vessel deck and easy to install on items which would require to be cut, this is seen as one of the market leading assemblies and is an excellent aid in terms of weight and deck space.

## Specifications

### Emergency Cutter System AS00055

Weight in air (excluding oil)	150 kg
Overall dimensions	1350mm x 685mm x 535mm

### Item 1 - Wire Rope Cutter and frame AS00057

Weight in air (excluding oil)	35 kg
Overall dimensions	912mm x 307mm x 276mm

### Item 2 - Sack Truck Assembly AS00065

Weight in air (excluding oil)	110 kg
Overall dimensions (excluding cables & hoses)	1350mm x 685mm x 535mm

### Item 3 - 5m Hose Assembly AS00070

Weight in air (excluding oil)	5 kg
Overall dimensions	5m

## Physical

Weight of cutter in air	26 kg (excluding hydraulic fluid and hoses)
Overall dimensions	249mm x 155mm x 711mm (excluding fittings)

## Hydraulic Requirements

Cylinder Type	Double acting (3/8" BSP feed and return ports)
Maximum Operating Pressure	345 Bar (5000 PSI)
Swept Volume Cut Stroke	0.65 Litre
Swept Volume Return Stroke	0.54 Litre
