

Lantern Shark is made to extend the use of the Tiger digital stills camera. The flash unit is connected directly to the Tiger camera's flash connector. The Lantern is a high output flash for the Tiger digital stills camera and will facilitate high quality images at distances up to 7 - 10 m. This makes it ideal when capturing long distance digital still images.

Key Features

Duplex Stainless Steel
Std. Connector - MCBH4M
Power - 24V / 5W
