SeaLED 125

High output multipurpose SEA LED light panel for ROV / inspection points. Imenco SeaLED 125 is fitted with the latest high quality LED arrays which have a much longer lifespan than traditional Halogen / HID lights. SeaLED 125 can be delivered with different colour temperatures and lens angles. LED 125 light output is easily regulated from 0 - 100%.

Specifications

Input Power	1000W (≈ 300W Halogen)
Power	110V AC
Light output	7500 Lumen
Light temperature	3200K or 6500K
Light Beam Angel	25°, 40° or 70°
Light regulation area	0-100%
Regulation modes	Triac dimmable or by 0-10V DC
LED array life expectancy	50,000 hours
Depth rating	3000m
Materials	Hard Anodised Aluminum
Dimension ex. Connector:	76 mm x 137 mm x 43 mm
Weight	0,83 kg in air / 0,6 kg in water
Connector	MCBH3M (or specified)
